Keep your hands open
Soak it in, let the new begin and move on through
Let the sapling rise up through the leaves
The wind and rain, the joy and pain make the new limbs new
Til it's just another oak among the trees

Time is never on our side, but it's what we need
Built throughout the stream
A one-way trip, enjoy the ride while you have the steam
You go with a part of me
Go with a part of me

The days are long, the years are short, just don't lose sight

Baby hold on tight
Nothing lasts forever, wishing some things did
The rest can fade away
We try and try to slow it down but as I go
You're always a part of me
Forever a part of me
